DARK METAL'S DESIGN STORY

“EVERYTHING CHANGES”

Life begins in darkness. Everything we know is born from it, then meets the light and transforms into color—like unique photographs developing in a darkroom. The depth of the human soul is also dark. It is the starting point of everything we can be, dream, and create—our very first room, in a sense.

When we turn inward, we see in the dark. It is there that dreams and ideas take shape, illuminating the world around us. To unlock creativity, we must first dive into those deep shadows. That's why the greatest ideas often come from those who embrace the dark.

With Dark Metal, we have poured our creativity into its deepest, rawest form—just as we feel it. Designed with a rebellious free spirit yet in perfect harmony with life, it stands as a bold statement of expression.

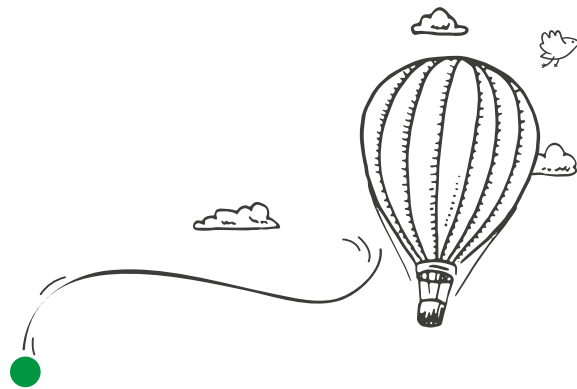

Now, the Dark Metal teen room awaits its owner to bring it into the light and reveal its endless colors.
