

# Princess

# Let the tales come true.

We were inspired by fairy tales and prepared a series like a fairy tale to decorate girls' rooms. This series, which we call Princess, will play a great role in the mental, physical and social development of your child, just like fairy tales, and will make your child feel like a princess in her room with its design and functional ideas.

# She will be much more happier.

In our Princess Series, we have thought of every detail that will make your child happier. Check out our wide selection of products and accessories that fit perfectly with the room. After all, you know the best combination to meet her needs and expectations.

# Bring the comfort to her room.

It is our duty to keep the little princess in comfort day and night. The Princess Bedstead was designed to carry out this duty. The head-board, which has a soft texture, is produced from sponge and fabric covering. In short, your child will always be comfortable while sleeping or reading before bed; her comfort will increase even more thanks to the Princess Nightstand, where she can put her belongings and her book on it.

## May her success grow.

Children grow fast. But this is no problem. Princess Study Desk can be adjusted at different heights. Let's add that the product has an integrated 12-volt USB Port for charging phones and tablets, and an external pen holder for putting pens, erasers and similar materials.

# Store it elegantly.

Designed with a princess theme, the Bedstead with Base offers a large storage space for everything you do not want to keep visible in the room. The soft back of the bed base is a comfortable reading area for your child... There is a reason that it is called Princess Bedstead with Base. A bed base that manages to look as elegant and stylish as a princess.

## Make room for her clothes...

Both with three doors and with a mirror...  
With this wardrobe that will be your child's dream, all her belongings will be in place. The cabinet, on the other hand, is very generous in keeping the room tidy with its drawers and shelves. The slow-down hinges used on cabinet doors both ensure slow closing of the doors and increase safety by preventing finger jamming. This is how it suits a princess.

## No need for her to be alone.

We have a surprise for the princesses who don't like to sleep alone. With the Princess Bedstead, which can be used as a parent bed or a storage area, your child can host a friend in her room or sleep with you that day. It's her decision. Maybe she just needs a place to store her stuff.

## She will get used to being tidy.

Your beloved daughter now has a new dresser where she can store her valuable belongings. In the Princess Dresser, which is designed with 2 doors and 1 drawer, the drawer is separated by one compartment. So she can organize her belongings easily, and will meet you in a tidy manner whenever she invites you to her room.

## Enrich the design.

We also thought of the little princesses and prepared wonderful surprises for them. Create the ambiance you want with surprises designed to fit her room, and make your baby's room much more comfortable and original.

# Your baby should always be in peace.

It is comforting to know that your baby is sleeping safe and sound. Princess Baby Bed with Elevator was designed just to make that happen. Handrails with telescopic elevators that provide easy access to your baby, wooden beads that supports her visual and mental development, a lower drawer where you can store the baby's belongings... Moreover, they are all produced from materials that care about your baby's health.

# Keep an eye on it.

Although it looks like a phaeton that came out of a fairy tale, the Princess Baby Bed was designed to bring an elegant solution to both your baby's needs and your comfort. It is completed with unbreakable transparent glass so that you will always keep your baby in your sight. While it cannot turn into a pumpkin like in fairy tales, you can be sure that it will turn your baby's room into a fairy tale room.

## MATERIAL SPECIFICATIONS

1. It is produced from melamine-coated particle board in 25mm, 16mm and 8mm thicknesses with E1 standards.
2. The straight and curved edges of the board are covered with 0.40 and 2mm thick PVC foil, which is glued with polyurethane-based glue.
3. 2mm rounded edge band is used in the areas where the user will come into contact with the product in order not to be harmed.
4. Blum brand self-integrating track hinges with brake are used on the doors.
5. Blum brand tandem rails with a carrying capacity of 15 kg are used in the drawers.
6. The surface of the metals is coated with electrostatic paint and the metals are guaranteed against corrosion for 5 years.
7. The plastic parts used in the series are made of injected ABS raw material and do not pose a threat to human health.
8. Hangers are produced from anodized coated extruded aluminum profiles.

## SAFETY AND CERTIFICATE

1. It is technically designed in accordance with TÜV GS (Europe) standards regarding safety, health and ergonomic conditions.
2. Wall mounting devices are used in the products to prevent modules such as cabinets, bookshelves and dressers from falling.

## FUNCTIONAL DETAILS

1. There is a ventilation capsule in the cabinet.
2. A mirror is placed on the middle cover of the 3 Door Wardrobe, and a pattern with UV technical printing is applied on the edges.
3. There is a plastic pen holder on the back of the desk where stationery items can be placed, and a writing board with a plastic surface on the back table.
4. The desk can be used with two different level settings according to the age and physical structure of the children.
5. In order to charge phones and tablets on the table, there is a charging adapter with a USB port, compatible with a 12-volt adapter.
6. The first shelf of the library is designed for toys and the other shelves are designed for books.
7. The toy pouf has both a seat cushion and a division, and the last drawer in the dresser has a division.
8. Patterned fabric upholstery is applied on the headboards of the bed and base.
9. The fabrics used in Bedsteads and Bases with Fabric Header can be wiped for cleaning
10. The volume of the base of 100 is 475 liters, and the volume of the base of 120 is 570 liters.
11. The spaces on the railing, which can be easily attached and removed, are intended for storing materials such as phones or tablets.
12. Special areas have been designed to display jewelry and buckles on the edges of the dresser mirror.
13. The carrying capacity of the bed, base, bottom bed and bunk beds is 130 kg.
14. Thanks to the wheels at the bottom and the curved space at the front, the lower beds can be easily pushed and pulled under the mattress.
